

CUMBERLAND PEDIATRIC FOUNDATION

June 16, 2011

TIMELY TRAUMA TOPICS SERIES 3

Vanderbilt University Medical Center, Department of Nursing Education and Development and
Vanderbilt Pediatric Trauma Department in association with Cumberland Pediatric Foundation presents:

“YOUTH SPORTS SAFETY AND PREVENTION EFFORTS”

Friday, July 8th, 2011

7:00 a. m - 12:30 pm

Monroe Carell Jr. Children's Hospital at Vanderbilt

First Tennessee Theater

Register online at: <http://www.childrenshospital.vanderbilt.org/traumaseries>

Intended Audience:

RNs, NP's, APNs, LPNs, family and pediatric nurse practitioners,
nursing students, paramedics, CP, RTs, Health Department, health educators, social work,
child life, case management, and rehabilitation staff.

Cost: **FREE** for Vanderbilt employees \$10.00 for outside attendees.

CPF will reimburse the \$10.00 for all members and staff!

NOTE: People who arrive at the class without registering will be asked to wait until
class begins to see if space is available. If you pre-register and pay but discover you cannot attend,
you may transfer your admission to someone else or arrange to attend a future Timely Trauma Topic Series.

No refunds will be issued. Please contact purnima.unni@vanderbilt.edu to make such arrangements.

PEDIATRIC ONCOLOGY DINNER/PROGRAM

Thursday, July 14th

Registration: 5:30 pm Dinner Program: 6-8 pm

Location: Flemings Restaurant, 2525 West End Avenue, Nashville, TN

Presented by: Dr. Debra L Friedman - Director, Division of Pediatric Hematology-Oncology
Monroe Carell Jr. Children's Hospital at Vanderbilt and faculty:

**Drs. Michael DeBaun, Scott Borinstein, Robert Sidonio, Jennifer Domm,
Emmanuel Volanakis and Adam Esbenshade**

Objectives:

Asthma in Sickle Cell Disease- The importance of the pediatrician making an asthma diagnosis;

Recognition of asthma in sickle cell disease and treatment of asthma in sickle cell disease;

A review of bone and soft tissue tumors in children, adolescents, and young adults:

Review the signs and symptoms of patients with malignant bone and soft tissue tumors;

Outline the treatment of patients with newly diagnosed malignant bone and soft tissue tumors;

Approach to the bleeding child in the primary care setting;

To be able to identify clinically significant bleeding that would warrant a hemostatic investigation;

Stem Cell Transplantation: The Basics

To identify indications for pediatric hematopoietic stem cell transplantation;

Pediatric leukemia in the era of personalized medicine;

Understand how personalized medicine represents a qualitative evolution of current oncology practice;

Understand how genome-wide evaluation of host and disease factors are being applied in pediatric oncology today;

Describe the presentation of common pediatric brain tumors;

Outline common treatment protocols for pediatric brain tumors;

Recognize long-term outcomes related to brain tumors and their therapy.
